WOJCIECH ŻUREK

APPLIED COMPUTER SCIENCE STUDENT

ABOUT ME

A final year student of computer science at the University of Wrocław, interested in programming and electronics. I spend my free time doing projects and expanding my knowledge about the latest computer technologies.

SKILLS

– Good knowledge of **C++**
– Basic knowledge of **Python**
– Passion for electronic circuits
– Ability to work in team
– Daily use of **Linux**
– Ability to work under time pressure
– English B2 level
– Good knowledge of **Arduino**

CONTACT

Tel: (+48) 502 127 222

WORK EXPERIENCE

Associate Software Engineer
GlobalLogic Wrocław
July 2021 - September 2021
*- developing a cryptography library using C++ (**STL**)*
- program optimization
- learning of Developer Embedded C++
*- working with **Linux** System*
*- using **GitLab** as a version control system*
*- using **Jenkins** for processes automation*
- runtime analysis (with profiler)
*- creating **CMake** for easy program start*
- searching bugs and errors and repairing it
*- writting **googletest** for program testing*

EDUCATION

University of Wrocław
Applied Computer Science and Measuring Systems (engineer degree)
Faculty of Physics and Astronomy
2018 - 2022

SUMMARY

I'm interested in C ++ programming and electronics. I like exact sciences, mainly math and physics. I am a diligent person, open to new technologies and devote a lot of time to learning. During my work at GlobalLogic, I have gained valuable experience and team work communications skills. I have broadened my knowledge about C++. Besides, during my studies I was creating a project based on C++ and UnrealEngine 4. I also have a SolidWorks CSWA certificate. I would like to work in a place where I can develop my skills and expand my knowledge.
